

21280 Milk Bottle Holder Stand

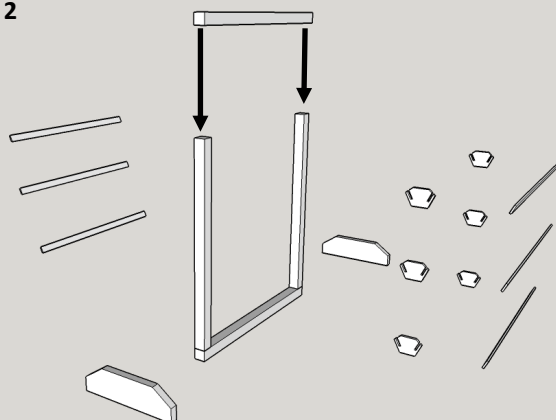

Components: **two** side beams with feet pre-attached, **two** frame beams with pilot holes in each end, **six** brackets, **six** bottle beams, **fifteen** screws.

Feet have been removed for clarity in images 1-3.

1

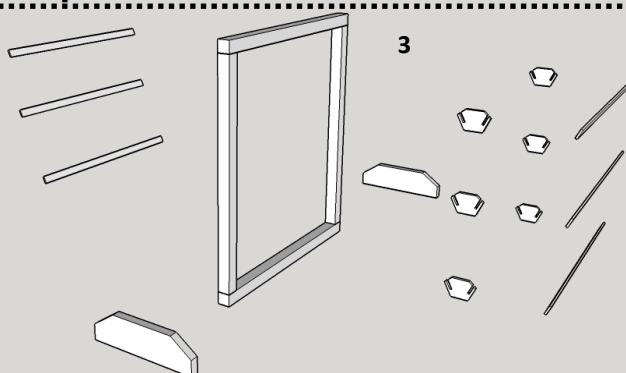

2

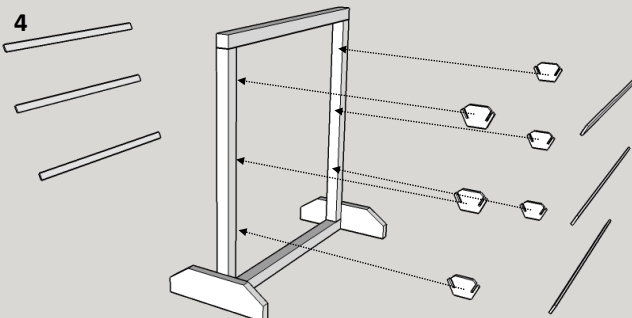

1. Secure the bottom beam to the two uprights (the two with the feet attached) with 2 screws in each end of the beam.
2. Add the top beam again using the two pilot holes and screws at each end.
3. You should have a square frame the feet were removed for clarity.
4. Next using the centre pilot hole attach each bracket to the uprights at equal height on each side it may be best to measure this out with a rule before screwing. One screw is needed for each bracket.
